Creating Visual Effects msdn microsoft com

Creating Visual Effects. You can achieve various visual effects in MCML by creatively displaying images and using attribute settings. All view items are displayed within rectangles, and you cannot specify rounded edges or other shapes. If you want to display other shapes, you must create and display an image. You can also create a mask and display that over another image or colorfill area. In the example below, a black outline with a transparent center is displayed over another image. The
