In most countries, the contribution that higher education and lifelong learning make to economic growth is undisputed, and governments have set targets for increasing the percentage of the population holding post-secondary diplomas of some sort. In the United States, whose economy is increasingly shaped by globalization and technological expertise, a worker with only a high school diploma

### **Lifelong Learning in Higher Education Christopher**

Lifelong Learning in Higher Education examines how universities and colleges can prepare their students for lifelong learning - not just by means of continuing education and specialized courses for adults, but also through mainstream teaching programmes geared to traditional students. Fully revised

and published in paperback for the first time

<http://sandrias-birmakatzen.de/Lifelong-Learning-in-Higher-Education-Christopher--.pdf>

### **Lifelong Learning Times Higher Education THE**

As lifelong learning for all develops, more people are likely to look either to their local institution of higher education for part-time programmes of learning or further afield for high-quality distance or open-learning programmes. Mechanisms need to be in place to facilitate such developments and to support them with appropriate funding.
