Outcome measurement in the public sector

The reason for this is a misunderstanding of the purpose of performance measurement; ironically you could describe this as the desired outcome of outcome measurement. Here's the low-down: it's not about the measuring, it's about having or creating a program or an organization that's worthwhile to measure.

Measurement of Public Sector Output and Productivity

Once true output measures for the public sector replace input measures, then measuring quality improvements is the next important step. Education and health are the government s biggest spending areas and adjustment for quality could make significant differences to the measures of output for these sectors, as it has in the United Kingdom. New Zealand could experiment with using the quality

Measuring Performance in Public Sector Programs

The quest for high performance in public sector programs is not new. For nearly a century, politicians, administrators and the public have been concerned about economy, efficiency and productivity in government organizations. Efforts to measure the outputs of public agencies and to evaluate their impacts or outcomes have long been goals for reformers seeking improvements in government
