What is performance management? Performance management is a tool for improving the work performance and productivity of individuals, teams and organizations. It is increasingly important in the public sector in responding to budgetary and fiscal pressures, increasing demands for public services, and the need for more transparency in reporting on the use of government funds.

Performance Management in the Public Sector Wouter Van

In times of rising expectations and decreasing resources for the public sector, performance management is high on the agenda. Increasingly, the value of the performance management systems themselves is under scrutiny, with more attention being paid to the effectiveness of performance management in practice.
